

Response 1:

The screenshot shows a REST client interface with a POST request to `https://api.groq.com/openai/v1/audio/speech`. The request body is a JSON object with the following fields:

```
{  "model": "canopylabs/orpheus-v1-english",  "input": "[Cheerful] vanakkam. I am a language model created by Groq. I am here to help you with any questions you may have. How can I assist you today?",  "voice": "diana",  "response_format": "wav"}
```

The response status is **200 OK** with a duration of 1.45 s and a size of 402.08 KB. The response is a WAV audio file, which is displayed as a waveform in the preview section at the bottom.
